# Guided Restorative Solutions

by Vulcan and BioHorizons

**Cases start  
at \$418\***

Guided Restorative Solutions (GRS) combines the efficiency and predictability of guided surgery, with immediate, provisional prosthetics. GRS conveniently delivers everything needed for the case, including BioHorizons implants. Vulcan Custom Dental will work with you to deliver the best outcome for your patient, including treatment planning the case, to designing and fabricating the immediate restoration.

## Supported Lab Software

Vulcan Custom Dental is the only validated milling center for BioHorizons and Camlog implant systems.  
Vulcan is also a FDA registered medical device manufacturer for surgical guides.

\* Includes planning, surgical guide and provisional restoration. Implant sold separately.
